Transcend SSDs & DRAM Modules:

Powering the Future of Smart Healthcare

Transcend's industrial-grade SSDs provide high-speed data transfer, low power consumption, and large capacity to accelerate imaging systems such as MRI, CT, and ultrasound scanners. Meanwhile, the DDR4 DRAM modules offer high bandwidth and low latency to power AI-assisted diagnostics, clinical data caching, and real-time patient monitoring. Working in tandem, these solutions form a robust, high-performance foundation that drives medical innovation and advances digital healthcare transformation.

TCG Opal 2.0 compliant

SSDs secure data with hardware-based AES 256-bit encryption.

PLP Protection

Data integrity guaranteed during sudden power failure.

Quality DRAM chips

JEDEC-compliant DRAM modules undergo 100% reliability test.

Featured Products

PCIe Gen 4x4
M.2 2280

MTE560P

PCIe Gen 4x4
M.2 2230

MTE380T

SATA III 6Gb/s
2.5”

SSD470A

Long/SO-DIMMS
ECC/R-DIMMs

DDR4-3200
